

### Mechanical Service Workshop Assistant

Founded in 1987, Metrol are global leaders in the innovation, development and operation of wireless down-hole systems, using acoustic, electromagnetic and inductive telemetry.

Metrol's understanding of this technology and its application plays a major part in our success. Our products are already used by energy companies throughout the world during exploration and production, where the data and control provided allows significant advances in efficiency and safety. Metrol's commitment to research and development has ensured that the company stays at the forefront of downhole communications and the successful introduction of a range of new products has resulted in company growth which provides an opportunity for skilled and innovative engineers.

We are located in the Kirkhill Industrial Estate in Dyce, but operations are global, and we have offices in Dubai, the United States and other worldwide locations.

With a family business culture, we aim to create and provide a working environment that promotes from within, encourages training and development and allows and trusts individuals to maintain a work-life balance.

#### **Benefits:**

The role comes with a competitive salary and benefits package including:

- Culture that promotes teamwork and empowering individuals to make a difference
- Challenging role with on-the-job training, working as part of an expert team
- 33 days holiday with additional holidays for long service and long service awards
- Company Pension contributions
- Private Healthcare and Life Insurance
- Cycle to work scheme

#### **The Role:**

We are actively recruiting an enthusiastic and driven Mechanical Service Workshop Assistant to join our team. This is a full-time role working 37.5 hours per week and is site-based.

#### **Main Duties:**

- Assemble, disassemble, service, test and clean a range of downhole mechanical parts and equipment.
- Maintain as required, all records and documentation related to equipment being worked upon.
- Provide mechanical assistance to all other departments.
- Actively participate in continual process improvement.
- Perform duties in line with Metrol QHSE policy.

#### **Required Skills & Experience:**

Our Mechanical Service Workshop Assistant will require the following knowledge and/or experience:

- Previous workshop experience would be preferred but not essential. Full training will be given.

**Location:**

Our Main Office is in the Kirkhill Industrial estate in Dyce, Aberdeen. This role may require occasional periods of travel to locations worldwide.
